

# Index to PTIA Guidance Notes

This document provides an index to PTIA Guidance Notes. It will be updated regularly as new Guidance Notes are produced or existing Guidance Notes are revised.

This Index is presented in two formats:

- Index by Guidance Note Number
- Index by Subject

By Guidance Note Number:

Subject	Number	Date
Index to Guidance Notes	<b>GN01</b>	January 2015
Barricade Construction for Mono-strand Stressing	<b>GN02</b>	May 2012
Safe Stressing – Mono-strand Post-tensioning	<b>GN03</b>	May 2012
Safe Stressing – Multi Strand System	<b>GN04</b>	May 2012
Mono-strand Post-tensioning of Concrete Buildings	<b>GN05</b>	November 2013
Post Cut Holes through Post-tensioned Slabs	<b>GN06</b>	December 2014

By Subject:

Subject	Number	Date
<b>Construction</b>		
Mono-strand Post-tensioning of Concrete Buildings	GN05	November 2013
<b>Demolition and Modifications</b>		
Post Cut Holes through Post-tensioned Slabs	GN06	December 2014
<b>Safety</b>		
Barricade Construction for Mono-strand Stressing	GN02	May 2012
Safe Stressing – Mono-strand Post-tensioning	GN03	May 2012
Safe Stressing – Multi Strand System	GN04	May 2012

**Disclaimer:**  
Post-tensioning Institute of Australia (PTIA) is a not for profit organisation sponsored by organisations working in the post-tensioning industry in Australia. Its purpose is to promote and advance the post-tensioning industry in Australia, including the provision of information about the use and application of post-tensioning. This document is produced by PTIA for that purpose. The information provided is intended for general guidance only and in no way replaces the services of professional consultants for specific projects or applications. Consequently no legal liability for its use can be accepted by PTIA.

**Revisions:**  
PTIA may revise this document from time to time, or withdraw it. For the current version of this document, refer to the PTIA website or contact PTIA.
